### **RESPONSE TO AMENDMENT**

1. Claims 51-113 are pending in the application, claims 92-113 are withdrawn from consideration. Claims 1-50 have been cancelled.
2. Amendments to the specification and the claims, filed on November 9, 2009, have been entered in the above-identified application.

#### ***Election/Restrictions***

3. Claims 92-113 would have been grouped with the invention of Group II had they been presented at the time of the restrictions. Therefore, claims 92-113 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on April 27, 2009.

The requirement is still deemed proper and is therefore made FINAL.

#### ***REJECTIONS***

4. **The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.**

#### ***Drawings***

5. The drawings are objected to because the drawings filed on November 9, 2009 have not been labeled properly. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are

required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

6. Figures 1 and 2 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance. See page 11, lines 5-8 of the new translated specification.

***Specification***

7. The disclosure is objected to because of the following informalities: the specification lacks section heads. See MPEP § 601 for the preferred form and content of an application.

***Claim Rejections - 35 USC § 112***

8. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

9. Claims 51-91 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In the instant case amended claims 51-91 contain(s) the limitations “carrier,” “dressing,” “bonding layer” and “substrate” in combination. The examiner is unable to find this embodiment disclosed in either the original specification or the newly translated specification. Furthermore, it appears that Applicant has replaced “substrate” with “carrier” throughout the newly translated specification and the examiner is unable to find where in the specification it disclose “substrate.” Figures 6 and 7 in Applicant's disclosure invention only provide for a leather 7, a dressing 1 and bonding layer 12. The examiner is also unable to find an embodiment that includes the dressing, bonding layer and substrate or carrier.

The new matter must be deleted.

10. Claims 51-91 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The limitation “velourlike” in claim 51 is unclear and renders the claim vague and indefinite. The addition of the word “like” to an otherwise definite expression extends the scope of the expression so as to render it indefinite. Furthermore, it is unclear what qualities of “velour” are desired.

#### ***ANSWERS TO APPLICANT'S ARGUMENTS***

11. Applicant's arguments in the response filed November 9, 2009 regarding the previous rejections of record have been considered but are moot due to the new grounds of rejection.

#### ***Conclusion***

12. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
